Expectation To deliver taste, flavour and quality with point of difference is the challenge “gauntlet” thrown at the feet of all food and beverage operators – however only the progressive, client conscious few draw the changes. Having the confidence to grasp the gauntlet places you, your team in front of the pack leading creative innovation, bringing home the point of difference.

Let us “take you to the water” and assist you to grasp the knowledge that will enable your next University food & beverage concept to be that point of difference.

Be part of a small selected delegate group brought together by UHS Ltd, University Hospitality Seminars together with event sponsor Manitowoc Foodservice as we invite you on one of 2017’s must attend events.
