The Trainers

Andy Hanselman

Andy helps organisations and their people create competitive advantage by 'Thinking in 3D'! That means being 'Dramatically and Demonstrably Different'! As a recognised expert on business competitiveness, he has spent over 25 years researching and working with thousands of successful organisations and their leaders from a wide range of sectors.

This has helped him identify the 7 Characteristics of 3D Businesses. Not the latest 'fad' or hyped 'panacea' for business success, nor a list of 'do's and don'ts, or 'magical answers', but proven methodologies and processes that help successful winning leaders maximise the performance of their organisation, their people and themselves. He's even written a book about them!

Andy brings these lessons to life by speaking at events, conferences, workshops and seminars! As a speaker, Andy thrives on interacting with people ensuring that they are challenged, stimulated and motivated. His style is participative, fast paced, humorous and relevant. He believes people learn best by doing and having fun! As a result, he works hard to offer them practical, stimulating fresh ideas, tools and techniques that provide no-nonsense 'stuff' they can actually use in their organisation immediately.
